

Handprint Dairy Cow Craft

Supplies:

green or black construction paper for background

white construction paper

pink construction paper or pink marker

pink, white and black paint

paint brushes

craft glue

googly eyes (optional)

scissors

Instructions:

Paint the hand white, and stamp on a piece of construction paper. You may want to fill in some of the missing areas with paint. Add a white tail using a paintbrush and allow to dry completely.

Cut a head and ears from white construction paper and glue to the thumb (pattern attached).

Glue on the googly eyes.

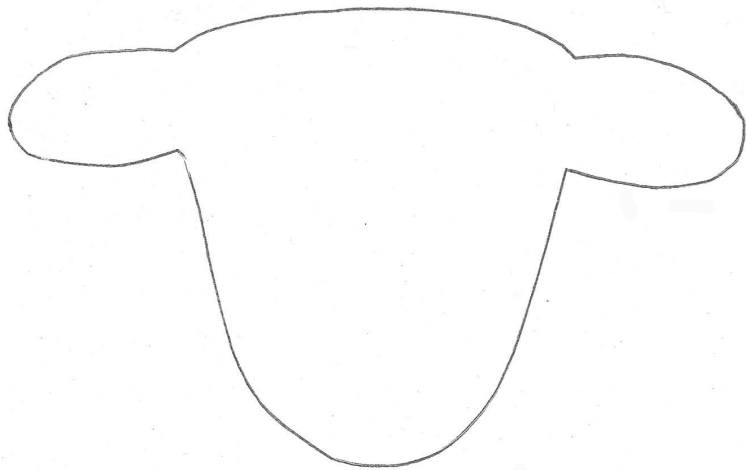

Add a nose using a pink marker and add pink to the ears. You can use pink construction paper instead of marker if you wish.

Add the spots and hooves using the black paint as well as two dots for the nostrils.

Dip a thumb in pink paint and stamp it between the back two legs. Add four small lines. This will be the udder. Allow to dry.
